

APAGE Regional Congress 2014, Singapore

“Hysterectomy and Managing Complications in Minimally Invasive Surgery”

12 – 14 June 2014
Academia

ORGANISED BY:

Minimally Invasive Surgery Unit, KK Women's and Children's Hospital, in conjunction with
SingHealth OBGYN Academic Clinical Program
Asia-Pacific Association of Gynecological Endoscopy and Minimally Invasive Therapy (APAGE)

NOMINAL SPONSOR:

College of Obstetricians and Gynaecologists, Singapore
Obstetrical & Gynaecological Society of Singapore
CME points awarded

SCIENTIFIC PROGRAM:

MAIN CONGRESS

This congress will centre on the theme of minimally invasive access hysterectomy and cover various aspects including

- techniques in conventional laparoscopic, robotic and single port hysterectomy
- surgical approaches and avoiding complications in performing hysterectomy for complex benign gynaecological conditions (frozen pelvis, endometriosis, bulky uterus) as well as touch on hysterectomy and lymphadenectomy in surgical gynaecology.
- Controversies or topics of interest surrounding hysterectomy or conditions that necessitate hysterectomy

The other focus of the congress will be managing complications in minimally invasive surgery and how to avoid the need for a laparotomy in these situations.

A significant part of the program will be dedicated to LIVE SURGERIES (cases include hysterectomy in severe endometriosis, hysterectomy with large uterus) and there will be LECTURES, VIDEO presentations and DEBATES covering the above topics.

These sessions will feature renowned international and regional gynaecoscopic surgeons, as well as colorectal surgeons and urologists to offer their perspectives in preventing and managing complications.

PRE-CONGRESS WORKSHOPS

- 1) ANIMAL WORKSHOP – ‘Advanced Laparoscopy : Hysterectomy techniques and Managing complications without converting to laparotomy’
 - Participants will learn the techniques of laparoscopic hysterectomy, pelvic side wall dissection, managing bowel and urologic injuries laparoscopically including suturing techniques.

2) DRY LAB EXERCISES

- During this interactive teaching session participants will learn laparoscopic suturing, handling single port instruments, hysteroscopic resection, experience the use of different energy sources and new endoscopic devices and undergo laparoscopic simulator training

Above program may be subject to modification.

REGISTRATION FEE:

		Early Bird Rates (registered by 31 March 2014)
Main Conference	SGD 400	SGD 300
Animal Workshop	SGD 1,500	SGD 1,200 (first 20 delegates only)
Dry Lab	SGD 300	–
Conference + Animal + Dry Lab	SGD 2,000	SGD 1,800 (first 20 delegates of animal workshop only)
